SECTION 1. QUESTIONS AND ANSWERS

- 1.1 **QUESTION: Would the City Revise the Licensing Requirements? Change to General Contractor License (GC) or Certified Underground Utility Contractor (CUC)? The City could maintain that contractors should have Advanced MOT Certifications or Outsource to a Company that does.**

ANSWER: Yes, the City will allow a General Contractor (GC) or Certified Underground Utility Contractor (CUC) as long as they have Advanced MOT Certification or can sub-contract those services to a vendor who does have Advanced MOT Certification. GC or CUC Contractors will need to upload a copy of their State of Florida license to be verified by Procurement.
