In accordance with 52.219-14 Limitations on Subcontracting (JAN 2026), the prime contractor will **not** pay more than **85 percent** of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 85 percent subcontract amount that cannot be exceeded.

A similarly situated subcontractor is a small business concern subcontractor that is a participant of the same SBA program that qualified the prime contractor as an eligible quoter and awardee of the contract. The contractor is responsible for ensuring compliance with the Limitation on Subcontracting.

At the conclusion of the period of performance and prior to final payment, the contractor shall submit a Limitation on Subcontracting Report directly to the Contracting Officer. The following information is required as part of the report:

Whoever violates the requirements set forth in paragraph (a) of this section shall be subject to the penalties prescribed in 15 U.S.C. 645(d), except that the fine shall be treated as the greater of \$500,000 or the dollar amount spent, in excess of permitted levels, by the entity on subcontractors. A party's failure to comply with the spirit and intent of a subcontract with a similarly situated entity may be considered a basis for debarment on the grounds, including but not limited to, that the parties have violated the terms of a government contract or subcontract pursuant to FAR 9.406-2(b)(1)(i) (48 CFR 9.406-2(b)(1)(i)).

## **H-8 Conformity with Drawings and Specifications**

Unless working tolerances are specified, all work performed and materials furnished shall be in reasonably close conformity with lines, grades, cross sections, dimensions, and material requirements shown on the drawings, indicated in the specifications, or designated on the ground. "Reasonably close conformity" is compliance with reasonable and customary manufacturing and construction tolerances.

The Contractor shall provide, erect, and maintain all necessary barricades, suitable and sufficient lights, danger signals, signs, and other traffic control devices, and shall take all necessary precautions for the protection of the work and safety of the public. Roads closed to traffic shall be protected by effective barricades, and obstructions shall be illuminated during the hours of darkness. Suitable warning signs shall be provided to properly control and direct traffic.

The Contractor shall erect warning signs in advance to any place on the project where operations may interfere with the use of the road or trail by traffic and at all intermediate points where the new work crosses or coincides with an existing road or trail. All road barricades, warning signs, lights, temporary signals, flagmen and pilot car operators and equipment, and other protective devices, except for special devices, shall conform with Part VI of the Manual on Uniform Traffic Control Devices for Streets and Highways, published by the Federal Highway Administration and applicable safety codes.

## CLAUSES INCORPORATED BY FULL TEXT

### 52.213-4 Terms and Conditions—Simplified Acquisitions (Noncommercial).

#### Terms and Conditions—Simplified Acquisitions (Noncommercial) (September 2025)

(a) Inspection/Acceptance. The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair/replacement or reperformance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post acceptance rights—

- (1) Within a reasonable period of time after the defect was discovered or should have been discovered; and
- (2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) Excusable delays. The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence. Examples of occurrences include acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. When an excusable delay occurs, the Contractor shall—

- (1) Notify the Contracting Officer in writing as soon as possible;
- (2) Remedy the delay as quickly as possible; and
- (3) Notify the Contracting Officer when the occurrence is over.

(c) Termination for the Government's convenience. The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges the Contractor can demonstrate to the satisfaction of the Government using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred which reasonably could have been avoided.

(d) Termination for cause. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. The Government will send a cure notice to the Contractor, unless the reason for the termination is late delivery. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(e) Warranty. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(End of clause)

### 52.225-9 BUY AMERICAN - CONSTRUCTION MATERIALS (September 2025)

(a) Definitions. As used in this clause—

Commercially available off-the-shelf (COTS) item—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” at Federal Acquisition Regulation (FAR) 2.101);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in [46 U.S.C. 40102\(4\)](#), such as agricultural products and petroleum products.

"Construction material" means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

Cost of components means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

Critical component means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

Critical item means a domestic construction material or domestic end product that is deemed critical to U.S. supply chain resiliency. The list of critical items is at FAR 25.105.

Domestic construction material means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of foreign iron and steel constitutes less than 5 percent of the cost of all components used in such construction material. The cost of foreign iron and steel includes but is not limited to the cost of foreign iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the construction material and a good faith estimate of the cost of all foreign iron or steel components excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of "cost of components".

Fastener means a hardware device that mechanically joins or affixes two or more objects together. Examples of fasteners are nuts, bolts, pins, rivets, nails, clips, and screws.

Foreign construction material means a construction material other than a domestic construction material.

Foreign iron and steel means iron or steel products not produced in the United States. Produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, from the initial melting stage through the application of coatings, except metallurgical processes involving refinement of steel additives. The origin of the elements of the iron or steel is not relevant to the determination of whether it is domestic or foreign.

Predominantly of iron or steel or a combination of both means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

Steel means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

"United States" means the 50 States, the District of Columbia, and outlying areas.

(b) Domestic preference.

(1) This clause implements [41 U.S.C. chapter 83](#), Buy American, by providing a preference for domestic construction material. In accordance with [41 U.S.C. 1907](#), the domestic content test of the Buy American statute is waived for construction material that is a COTS item, except that for construction material that consists wholly or predominantly of iron or steel or a combination of both, the domestic content test is applied only to the iron and steel content of the construction materials, excluding COTS fasteners. The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.

(2) This requirement does not apply to information technology that is a commercial product or to the construction materials or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate

"none"]

(3) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that-

(i) The cost of domestic construction material would be unreasonable.

(A) For domestic construction material that is not a critical item or does not contain critical components.

(1) The cost of a particular domestic construction material subject to the requirements of the Buy American statute is unreasonable when the cost of such material exceeds the cost of foreign material by more than 20 percent;

(2) For construction material that is not a COTS item and does not consist wholly or predominantly of iron or steel or a combination of both, if the cost of a particular domestic construction material is determined to be unreasonable or there is no domestic offer received, and the low offer is for foreign construction material that is manufactured in the United States and does not exceed 55 percent domestic content, the Contracting Officer will treat the lowest offer of foreign construction material that exceeds 55 percent domestic content as a domestic offer and determine whether the cost of that offer is unreasonable by applying the evaluation factor listed in paragraph (b)(3)(i)(A)(1) of this clause.

(3) The procedures in paragraph (b)(3)(i)(A)(2) of this clause will no longer apply as of January 1, 2030.

(B) For domestic construction material that is a critical item or contains critical components.

(1) The cost of a particular domestic construction material that is a critical item or contains critical components, subject to the requirements of the Buy American statute, is unreasonable when the cost of such material exceeds the cost of foreign material by more than 20 percent plus the additional preference factor identified for the critical item or construction material containing critical components listed at FAR 25.105.

(2) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both, if the cost of a particular domestic construction material is determined to be unreasonable or there is no domestic offer received, and the low offer is for foreign construction material that does not exceed 55 percent domestic content, the Contracting Officer will treat the lowest foreign offer of construction material that is manufactured in the United States and exceeds 55 percent domestic content as a domestic offer, and determine whether the cost of that offer is unreasonable by applying the evaluation factor listed in paragraph (b)(3)(i)(B)(1) of this clause.

(3) The procedures in paragraph (b)(3)(i)(B)(2) of this clause will no longer apply as of January 1, 2030.

(ii) The application of the restriction of the Buy American statute to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American statute.

(1)

(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including-

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier; and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American statute applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American statute applies, use of foreign construction material is noncompliant with the Buy American statute or Balance of Payments Program.

(d) Data. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Construction material description	Unit of measure	Quantity	Price (dollars)*
Item 1:			
Foreign construction material.	_____	_____	_____
Domestic construction material.	_____	_____	_____
Item 2:			
Foreign construction material.	_____	_____	_____
Domestic construction material.	_____	_____	_____

[\* Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued)]. [List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.][Include other applicable supporting information.]

(b) (1) If the wage determination provided by the Government for work at the primary site of the work is not applicable to the secondary site of the work, the offeror must request a wage determination from the Contracting Officer.

(2) The due date for receipt of offers will not be extended as a result of an offeror's request for a wage determination for a secondary site of the work.

#### L-3 52.225-10 NOTICE OF BUY AMERICAN REQUIREMENT – CONSTRUCTION MATERIALS (MAY 2014)

(a) *Definitions.* “Commercially available off-the-shelf (COTS) item,” “construction material,” “domestic construction material,” and “foreign construction material,” as used in this provision, are defined in the clause of this solicitation entitled “Buy American—Construction Materials” (Federal Acquisition Regulation (FAR) clause [52.225-9](#)).

(b) *Requests for determinations of inapplicability.* An offeror requesting a determination regarding the inapplicability of the Buy American statute should submit the request to the Contracting Officer in time to allow a determination before submission of offers. The offeror shall include the information and applicable supporting data required by paragraphs (c) and (d) of the clause at FAR [52.225-9](#) in the request. If an offeror has not requested a determination regarding the inapplicability of the Buy American statute before submitting its offer, or has not received a response to a previous request, the offeror shall include the information and supporting data in the offer.

(c) *Evaluation of offers.*

(1) The Government will evaluate an offer requesting exception to the requirements of the Buy American statute, based on claimed unreasonable cost of domestic construction material, by adding to the offered price the appropriate percentage of the cost of such foreign construction material, as specified in paragraph (b)(3)(i) of the clause at FAR [52.225-9](#).

(2) If evaluation results in a tie between an offeror that requested the substitution of foreign construction material based on unreasonable cost and an offeror that did not request an exception, the Contracting Officer will award to the offeror that did not request an exception based on unreasonable cost.

(d) *Alternate offers.*

(1) When an offer includes foreign construction material not listed by the Government in this solicitation in paragraph (b)(2) of the clause at FAR [52.225-9](#), the offeror also may submit an alternate offer based on use of equivalent domestic construction material.

(2) If an alternate offer is submitted, the offeror shall submit a separate [Standard Form 1442](#) for the alternate offer, and a separate price comparison table prepared in accordance with paragraphs (c) and (d) of the clause at FAR [52.225-9](#) for the offer that is based on the use of any foreign construction material for which the Government has not yet determined an exception applies.

(3) If the Government determines that a particular exception requested in accordance with paragraph (c) of the clause at FAR [52.225-9](#) does not apply, the Government will evaluate only those offers based on use of the equivalent domestic construction material, and the offeror shall be required to furnish such domestic construction material. An offer based on use of the foreign construction material for which an exception was requested—

(i) Will be rejected as nonresponsive if this acquisition is conducted by sealed bidding; or

(ii) May be accepted if revised during negotiations.

#### L-4 52.228-1 BID GUARANTEE (September 1996) (if applicable see block 13 on SF1442)

(a) Failure to furnish a bid guarantee in the proper form and amount, by the time set for opening of bids, may be cause for rejection of the bid.

(e) In the event the contract is terminated for default, the bidder is liable for any cost of acquiring the work that exceeds the amount of its bid, and the bid guarantee is available to offset the difference.

The Government intends to award a single contract to the responsible firm whose quote is most advantageous to the Government, price and other factors considered. Other factors for this solicitation include Prior Demonstrated Experience of the quoter.

(2) The Government shall not award any contract if the resulting contract would not represent a “best value” to the Government.

(3) To assure timely and equitable evaluation of quotes, quoters are cautioned to strictly comply with all instructions within this solicitation to ensure submission of a complete quote. Quoters are required to meet all solicitation requirements, including terms and conditions, representations and certifications, and those identified as evaluation factors. Failure to furnish a complete quote, at the time of submission, may result in the quote being unacceptable to the Government and eliminated from consideration for award.

(4) Quoters are cautioned to submit adequate information to enable the Government to fully ascertain each quoter's capability to perform the requirements in accordance with Section M. Commitments made in the quote will become a part of the resultant contract.

(5) The Contracting Officer has determined there is a high probability of adequate price competition in this acquisition. Upon examination of the initial quotes, the Contracting Officer will review this determination and if, in the Contracting Officer's opinion, adequate price competition exists, no additional cost information will be requested. However, if at any time during this competition, the Contracting Officer determines that adequate price competition no longer exists, quoters may be required to submit information to the extent necessary for the Contracting Officer to determine the reasonableness of the price.

(6) If a quoter believes that requirements in these instructions contain an error, omission, or are otherwise flawed, the quoter shall immediately notify the Contracting Officer in writing (email) with supporting rationale by the Questions Due Date provided on the Foreword Page. **All concerns and questions shall be submitted to Chad Clapp [chad\\_clapp@ios.doi.gov](mailto:chad_clapp@ios.doi.gov).**

(7) This RFQ does not commit the Government to any costs incurred in the preparation and submission of a quote or for any other costs incurred by any firm submitting a quote in response to this solicitation. Issuance of this RFQ does not constitute an award commitment on the part of the Government.

(8) A quote that is orderly and sufficiently documented will enable the Government to perform a thorough and fair evaluation. Quotes that fail to address any of the evaluation criteria may be deemed incomplete, and the quote may be removed from further consideration.

(9) Quoters are advised that the Government intends to award without deliberations but reserves the right to hold deliberations if determined necessary. Therefore, **quotes should be submitted initially on the most favorable terms from a price standpoint. Quoters should not assume they will be contacted or afforded an opportunity to clarify, discuss or revise their quotes.**

(10) Quotes must set forth full, accurate, and complete information as required by this RFQ, (including attachments), if applicable. The penalty for making false statements is prescribed in 18 U.S.C. 1001.

(11) Quote must be valid for a **minimum of 60 days.**

(12) Quoters must complete the System for Award Management (SAM) at <https://www.sam.gov/portal/public/SAM/> (previously ORCA and CCR). The Government shall obtain quoters' representations and certifications through this system.

(13) Electronic volumes must be separate attachments.

(14) Interchangeable Words: The following roles/words denote different legal terms and ramifications: contractor, quoter, firm and company, however for the purpose of this solicitation they are used interchangeably. In addition, the word "requirement" can be used interchangeably to mean one, a combination, or all the following: 1) Specifications, 2) Project and 3) Solicitation.

(15) Unless stated otherwise, alternate quotes are not authorized and will not be accepted.

## **SECTION M: EVALUATION FACTORS FOR AWARD**

### **M-1 BASIS FOR CONTRACT AWARD**

(a) This acquisition is a **Total Small Business** set-aside under the North American Industry Classification System (NAICS) Code 238210 with a small business size standard of \$19 million. A quoter determined to be other than a small business will be deemed ineligible for award.

(b) Award will be made to the responsible firm whose quote is most advantageous to the Government, price and other factors considered. Other factors for this solicitation include Prior Demonstrated Experience of the quoter. Prior Demonstrated Experience information may be based on the Government's knowledge of and previous experience with the quoter, or other reasonable basis.

(b) The Government intends to make **ONE** award based on evaluation of quotes submitted in response to this solicitation. Award will be made to the responsible quoter whose quote conforms to all solicitation requirements, such as terms and conditions, representations and certifications, and provides the best value to the Government based on the results of the evaluation.

**M-2**

### **EVALUATION PROCESS**

#### **PRICE AND PRIOR DEMONSTRATED EXPERIENCE**

Prior Demonstrated Experience is more important than cost or price.

As the non-price merits of competing quotes approach equal, Price will become more important in the best value decision. Quoters are cautioned that the award may not necessarily be made to the lowest priced quote.

Following receipt of quotes, the Government may perform a comparative analysis (comparing quoter responses to one another) to select the quoter that is best suited to fulfill the requirements, based on the quoter's responses to the factors outlined in this RFQ and their relative importance.

The Government anticipates selecting the best-suited quoter from initial responses, without engaging in exchanges with quoter's.

Quoters are strongly encouraged to submit their best prior experience and price in response to this RFQ.

Once the Government determines the quoter that is the best-suited (i.e., the apparent successful quoter), the Government reserves the right to communicate with only that quoter to address any remaining issues, if necessary, and finalize a purchase order with that quoter. These issues may include technical and price. If the parties cannot successfully address any remaining issues, as determined pertinent at the sole discretion of the Government, the Government reserves the right to communicate with the next best-suited quoter based on the original analysis and address any remaining issues. Once the Government has begun communications with the next best-suited quoter, no further communications with the previous quoter will be entertained until after the purchase order has been awarded. This process shall continue until an agreement is successfully reached and a purchase order is awarded.

### M-3 VOLUME 1: REQUIRED DOCUMENTATION

Volume 1 will be evaluated for acceptability only. Acceptability includes complete and accurate forms.

### M-4 VOLUME 2: FACTOR 1, PRIOR DEMONSTRATED EXPERIENCE

(a) Prior Demonstrated Experience projects deemed not relevant will be rejected and not considered. Projects deemed not recent (greater than five years) will be disregarded.

#### Definitions:

(i) **Recent:** Recent is defined as a project completed or significantly completed within 5 years from the issuance date of this solicitation.

(ii) **Relevant:** Prior Demonstrated Experience effort involving much of the same magnitude of effort and complexities this solicitation requires. Effort and complexities are defined by the scope, tasks, and requirement's specifications. Therefore, projects will be considered not relevant if the Prior Demonstrated Experience effort did not involve any of the magnitude of effort and complexities required by this solicitation. Projects including similar tasks associated with the requirements of this solicitation as determined by the scope of work and specifications, size, magnitude (cost), complexity and scope, and/or contained similar features, functions, components, systems, and/or project(s) were for a federal, state, or local municipality. The magnitude is defined in Block 10 of SF 1442.

(b) **Prior Demonstrated Experience.** The Government will evaluate the Quoter's ability to successfully complete the project by reviewing their demonstrated experience. Previous experience will be assessed to determine the likelihood of achieving successful results, focusing on the Quoter's history of working with systems comparable to the requirements outlined in the technical documents. Additionally, the Government will consider the relevance of the Quoter's prior experience to this solicitation.

In consideration of a quoter's total Prior Demonstrated Experience information, one of the following ratings will be assigned:

Rating	Description
High Confidence	The Government has <b>high confidence</b> that the Quoter will be successful in performing the contract with <b>little or no</b> Government intervention.
Some Confidence	The Government has <b>some confidence</b> that the Quoter will be successful in performing the contract with <b>some</b> Government intervention.
Low Confidence	The Government has <b>low confidence</b> that the Quoter will be successful in performing the contract <b>even with</b> Government intervention.

### M-5 VOLUME 3: FACTOR 2, PRICING

(a) The Government will evaluate quotes for award purposes by adding the total price of all line-items.

(b) Price reasonableness, for a price to be reasonable, it must represent a price to the Government that a prudent person would pay in the conduct of competitive business. Normally, price reasonableness is established through competitive quotations. For additional information, see FAR 31.201-3, Determining Reasonableness.

(b) **Affordability:** An affordability assessment will consider if the proposed price is within the Government's funding profile.

(c) **Unbalanced Pricing.** All separately priced line items will be analyzed to determine if the prices are unbalanced. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more line items is significantly over or understated as indicated by the application of price analysis. The quote may be rejected if the contracting officer determines that the lack of balance poses an unacceptable risk to the Government.
