1. NOTICE TO RESPONDENTS

The University of Texas Medical Branch at Galveston (“UTMB Health”, “University” or “UTMB”), has been at the forefront of health sciences, education, research and clinical excellence since it was established in 1891 as the state’s first academic medical center. The university has grown from one school, one academic building and one hospital to encompass five schools; a robust research enterprise; a comprehensive health system with four hospital campuses and an extensive network of ambulatory clinics; and a leading Correctional Managed Care program. The institution is growing strategically to make its vision of a healthier future for our state and beyond a reality. Please see UTMB’s website for further details related to UTMB’s plans for growth and consider this growth as part of your firm’s response.

Educating the health care workforce of the future—UTMB now includes the John Sealy School of Medicine and schools of Nursing, Health Professions, Graduate Biomedical Sciences and Public and Population Health, which collectively enroll 3,900 students, employ more than 900 faculty, and train 684 residents and fellows. Educational programs benefit from significant investment in simulation technology.

Discovering tomorrow’s health care—UTMB operates a world-renowned research enterprise that attracts significant external funding from government and other sources each year. The university is home to several institutes for advanced study: Institute for Bioethics and Health Humanities, Institute for Human Infections and Immunity, Institute for Translational Science and Sealy Institute for Vaccine Development. An Institute for Drug Discovery is under development as well. An international leader in infectious diseases research, UTMB is home to the Galveston National Laboratory, one of only two such national labs and the only national lab in Texas.

Providing a full system of care—Through the UTMB Health System, residents throughout the region and beyond have access to a full range of services, including primary and specialty care delivered in ambulatory clinics; urgent care services; emergency and trauma care; and advanced care and procedures in UTMB’s six hospitals. In Fiscal Year 2021, the UTMB Health System recorded more than 1.7 million outpatient encounters and 40,000 hospital discharges.

The historic Galveston Campus is situated on 84 acres on the east end of Galveston Island and is home to the 252-bed Jennie Sealy Hospital, an adult medical/surgical and intensive care hospital, and the adjacent 196-bed John Sealy Hospital. Currently under extensive modernization, John Sealy Hospital provides care for women, infants and children and will include behavioral health and rehab services in the near futures. The campus is also home to the 108-bed Texas Department of Criminal Justice (TDCJ) Hospital (more commonly known as Hospital Galveston), which is dedicated solely to the care of Texas’s offender population. The Galveston Campus includes a Level I Trauma Center (highest designation), Level IV Neonatal ICU (highest designation), an American Burn Association-verified adult burn center, and a unique Biocontainment Care Unit.

The Angleton Danbury Campus in Brazoria County provides community-level primary, specialty, urgent and emergency care while expanding access to UTMB’s entire network of hospitals and clinics for surrounding communities. A new outpatient center provides additional services to the region. The campus emergency room is the first trauma center-designated facility in Brazoria County at Level IV.

UTMB’s League City Campus includes a 97-bed hospital, emergency room and Level III Trauma Center, urgent care clinic, and specialty clinics. UTMB also has a first-of-its-kind collaboration with MD Anderson Cancer Center on the campus.

UTMB’s Clear Lake Campus is home to a 176-bed hospital, an emergency room and Level III Trauma Center (which is actively pursuing Level II trauma capability). In 2019, UTMB opened a 15-bed inpatient pediatric unit in collaboration with Children’s Memorial Hermann. In addition to the hospital, the Clear Lake Campus features an ambulatory clinic facility.

UTMB operates more than 90 clinics across the Houston-Galveston region and beyond, providing much needed primary and specialty care services to a rapidly growing population. It also provides care to women and children through a network of 13 Regional Women’s Services and Pediatrics clinics.

UTMB also operates an extensive Correctional Managed Care program, which cares for more than 96,000 offenders in approximately 100 state prisons and other correctional facilities. The program includes a sophisticated pharmacy system that serves all prison units in Texas, as well as one of the largest pharmacies and largest telemedicine programs in the nation.

1.10. Criteria for Selection

UTMB is not bound to accept the lowest priced proposal if that proposal is not in the best interest of UTMB as determined by UTMB. Proposals will be evaluated by UTMB personnel. The selection of the Respondent for this award will be based on, but not limited to, the factors listed below:

Further, Respondent recognizes and understands that any cost borne by the Respondent which arises from Respondent's performance hereunder shall be at the sole risk and responsibility of the Respondent.

1.13. Acquisition from Other Sources

- 1.13.1. UTMB reserves the right and may from time to time as required by UTMB's operational needs acquire Goods/Services of equal type and kind from other sources during the term of the Agreement without invalidating in whole or in part the Agreement or any rights or remedies UTMB may have hereunder.

1.14. Historically Underutilized Businesses

- 1.14.1. UTMB encourages and supports the participation of Historically Underutilized Businesses (HUBs) in responding to this RFP.
- 1.14.2. In accordance with Texas Government Code 2161, each state agency, including UTMB, is required to make a good faith effort to assist HUBs in competing for, and receiving, agreements awarded by the agency.

- 1.14.3. UTMB has reviewed this RFP in accordance with the Texas Administrative Code (Title 34, Part 1, Chapter 20, Subchapter D, Rule 20.285) and has determined that subcontracting opportunities are probable under this solicitation. Accordingly, a HUB Subcontracting Plan (HSP) is required as a part of your proposal. The HSP shall be developed and administered in accordance with the UTMB Policy on Utilization of Historically Underutilized Businesses). The HSP Package, including the required forms and instructions, can be accessed via the Texas Comptroller's website at:

1.15. Group Purchase Authority

- 1.15.1. Texas law authorizes institutions of higher education (defined by [§61.003, Education Code](#)) to use the group purchasing procurement method (ref. [§§51.9335, 73.115](#), and [74.008, Education Code](#)). Additional Texas institutions of higher education may therefore elect to enter into an agreement with the successful Respondent under this RFP. In particular, Respondent should note that UTMB is part of The University of Texas System ("UT System"), which is comprised of nine academic and six health universities described at <https://www.utsystem.edu/institutions>. UT System institutions routinely evaluate whether an agreement resulting from a procurement conducted by one of the institutions might be suitable for use by another, and if so, this could give rise to additional purchase volumes. As a result, in submitting its proposal in response to this RFP, Respondent should consider proposing pricing and other commercial terms that take into account such higher volumes and other expanded opportunities that could result from the eventual inclusion of other institutions in the purchase contemplated by this RFP.

1.16. Awarded Vendor Disclosure Requirements for Contract Exceeding \$1 Million

Effective January 1, 2016 and amended January 1, 2018, The University of Texas System institutions, including UTMB, must comply with the "Disclosure of Interested Parties" requirements mandated by HB 1295, as implemented by the Texas Ethics Commission. Briefly stated, contracts for goods or services exceeding \$1 million may not be executed by UTMB until the awarded vendor presents a signed certificate disclosing interested parties to the Agreement. A false certification will be deemed a material breach of agreement and, at UTMB's option, may result in termination of any resulting agreement.
14. Respondent hereby certifies that neither Respondent nor any firm, corporation, partnership or institution represented by Respondent, or anyone acting for such firm, corporation or institution, has violated the antitrust laws of the State

16. Respondent certifies as follows:

All disclosures by Respondent in connection with this certification will be subject to administrative review and approval before UTMB enters into an agreement with Respondent.
18. By signature hereon, Respondent certifies that an award of an Agreement to Respondent will not violate Section 2155.006, *Government Code*, prohibiting UTMB from entering into an Agreement that involves financial participation by a person who, during the previous five years, has been convicted of violating federal law or assessed a penalty in a federal civil or administrative enforcement action in connection with a contract awarded by the federal government for relief, recovery, or reconstruction efforts as a result of Hurricane Rita, Hurricane Katrina, or any other disaster occurring after September 24, 2005. A breach of this certification is a violation of the Equal Opportunity clause. The term "segregated facilities" means any waiting rooms, work areas, rest rooms and wash rooms, entertainment areas, and transportation or housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, color, religion, sex, or national origin, because of habit, local custom, or otherwise. Respondent further agrees that, except where it has agreements prior to the award with subcontractors exceeding \$10,000.00 which are not exempt from the provisions of the Equal Opportunity clause, Respondent will retain the certifications for each one of its subcontractors in Respondent's files, and that it will forward the following notice to all proposed subcontractors (except where the proposed subcontractors have submitted identical certifications for specific time periods):

This certification is a material representation of fact upon which reliance will be placed when UTMB executes this Agreement. If it is later determined that Respondent knowingly rendered an erroneous certification, in addition to the other remedies available to UTMB, UTMB may terminate this Agreement for default by Respondent.
23. Respondent acknowledges that UTMB is prohibited by federal regulations from allowing any employee, representative, agent or subcontractor of Respondent to work on site at UTMB’s premises or facilities if that individual is not eligible to work on federal healthcare programs including Medicare, Medicaid, or other similar federal programs. Therefore, Respondent will not assign any employee, representative, agent or subcontractor that appears on the List of Excluded Individuals issued by the United States Office of the Inspector General (“**OIG**”) to work on site at UTMB’s premises or facilities.
