The Contractor shall pick up and sweep, if necessary, all refuse that may drop at the complex during the collection and transfer of solid waste or recyclables.

The Contractor shall also be responsible to clean up immediately any spillage of liquids, including paint and/or hydraulic fluid that may be deposited on pavement/concrete parking areas, enclosure pads, etc.

5.21.**PROPERTY DAMAGE**

The Contractor shall be liable for damage caused by its servants or agents to buildings, enclosures, walks, lawns, drives, flowers, shrubs, or trees and for any loss of any nature whatsoever to the complex owner, and any such loss resulting from the acts of omission of the Contractor, his servants or agents, shall be promptly paid. If after ten days' notice, such payment is not made by the Contractor the municipality may pay the same and deduct the amount thereof from the next payment to the Contractor. The Mayor or his/her designee, or administrator shall be the sole judge of the reasonableness of all claims submitted and his/her decision shall be final and binding upon the Contractor. Contractor shall carry the appropriate property damage insurance as specified within.

5.22.**BREACH OF CONTRACT**

If the work to be done under these specifications and the contract to be entered into shall be abandoned or not carried on, or if at any time the Mayor, Director of Public Works or their Designee, or the Municipality's Contract Administrator, shall be of the opinion and shall report that the said work is unnecessarily or unreasonably delayed, or that Contractor has violated any of the conditions or covenants of these specifications, or is not making such collections on the scheduled collection times, the municipality shall have the right and power to notify Contractor to discontinue all work or any part thereof as the municipality may designate. The municipality shall thereupon have power to contract for the completion of the work, and, at its option, to hire so much equipment and to place such and so many persons on the work as it may deem advisable, by contract or otherwise to complete the work as herein described, or so much thereof as shall be necessary, and to charge the expense of said labor and material and equipment to the Contractor. The expense so charged shall be deducted by the municipality out of such monies as may be either due or may at any time thereafter become due to the said Contractor under the contract or any part thereof. In case the expense is greater than the sum which would have been payable under this contract, then the Contractor shall remit the amount of such excess to the municipality. The surety bond or bonds herein mentioned shall be security for the said indemnification of the municipality.

It is hereby stipulated and agreed that in the event of a labor strike or other emergency the Contractor shall not forfeit its contract by reasons thereof for the duration of such strike or act of God; provided, however, that the cost of performing the work specified in the contract to be done during such period shall be charged to the Contractor as in the case of a default by him.

The Contractor hereby agrees that in the event of such default, if the expense of carrying out the contract shall exceed the cost of said work under the contract, the said Contractor will reimburse the municipality for any expense over the cost of said work under the contract. Contractor agrees that any breach of contract shall give the municipality the right (in addition to its other rights under these specifications)

to utilize the rights reserved under this section. A strike contingency plan must be submitted at the time of the award.

5.23. TERMINATION OF CONTRACT

- A. Any violation of these specifications shall be sufficient cause for the immediate cancellation of the municipality's contract, who may thereupon employ the necessary labor to perform the work or re-advertise or re-let the work, at the expense of the offending Contractor and its sureties.
- B. If, through any cause, the successful bidder shall fail to fulfill in a timely and proper manner obligations under these specifications or if the Contractor shall violate any of the requirements of this contract, the municipality shall thereupon have the right to terminate their contract by giving written notice to the Contractor of such termination. Such termination shall relieve the municipality of any obligations for balances to the Contractor of any sum or sums set forth in the contract.
- C. Notwithstanding the above, the Contractor shall not be relieved of liability for damages sustained by the municipality by virtue of any breach of the contract by the Contractor and the municipality may withhold any payments to the Contractor for the purpose of compensation until such time as the exact amount of the damage due the municipality is determined. In case of default by the Contractor, the municipality may procure the articles or services from other sources and hold the Contractor responsible for any excess cost occasioned thereby.
- D. The Contractor agrees to indemnify and hold the municipality harmless from any liability to subcontractors/suppliers concerning payment for work performed or goods supplied arising out of the lawful termination of the contract by the municipality under this section.
- E. Continuation of the terms of this contract beyond the fiscal year is contingent on availability of funds in the following year's budget. In the event of unavailability of such funds, the municipality reserves the right to cancel their agreement.

5.24 MATERIAL DISPOSAL

All materials shall be disposed of directly to the designated disposal facility by the collection vehicle. No transfer system shall be employed by the Contractor, unless the municipality expressly approves of a licensed transfer station. All materials shall be disposed of on the same day on which it was collected. In cases where disposal cannot be made on the same day, then disposal shall be made no later than the following day in which the disposal facility is open and accepting material.

5.25**NOTICE DESIGNATIONS**

The locations designated in these specifications as the place at which all notices, letters and other communications shall be served, and to which all notices, letters and other communications shall be mailed or delivered.

All notices specifically mentioned herein and all other communications of any kind may be sent by regular mail, and the Contractor shall be deemed to have received said notice. If the document in question has been addressed to the Contractor at the address provided and has been deposited in the post-paid envelope and forwarded via United States Postal Service, the date of service of the notice or other communications shall be five days following the date on which the same was so deposited in the United States mail.

Nothing herein contained shall be deemed to preclude or render inoperative the service of any notice, letter or other communication upon the Contractor personally, it being agreed that personal service, while not required is superior to the general mode of service by mail as prescribed herein.

5.26**RE-DIRECT CONSIDERATION / FEES AFFECTED BY LAW**

Should a change in the approved Solid Waste Management Plan for the county in which the disposal facility is located re-direct the material collected under this contract, or should legislation first implemented after the date of execution of an agreement covering this contract impose taxes, tariffs, fees, surcharges, or other charges causing an increase or decrease in costs relating to the transportation, storage, processing treatment or disposal of material covered by this contract, the municipalities and Contractor agree upon proper certification to adjust the appropriate charges set forth in the contract.

5.27**CONSIDERATION OF LAW**

The Contractor shall comply with all laws, rules and regulations of safety and sanitation of the State of New Jersey, its departments, divisions, and agencies, as well as of the municipality, together with all laws, rules and regulations of the State of New Jersey, and of the United States with regard to working conditions, hours and wages. If any provision of the Instructions to Bidders, General Specification or other contract provision shall be held to be contrary to law, then such provision shall not be deemed valid and subsisting except to the extent permitted by law, but all other provisions shall continue in full force and effect.

5.28 DISCLOSURE OF CONTRIBUTIONS

All business entities are advised of their responsibility to file an annual disclosure statement of political contributions with the New Jersey Election Law Enforcement Commission (ELEC) pursuant to N.J.S.A. 19:44A-20.27 if they receive contracts in excess of \$50,000 from public entities in a calendar year. Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a “fair and open” process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of N.J.S.A. 19:44A-20.26. This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
 - of the public entity awarding the contract
 - of that county in which that public entity is located
 - of another public entity within that county
 - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed \$200 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an “interest” ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, “a contribution by that person’s spouse or child, residing therewith, shall be deemed to be a contribution by the business entity.” [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor’s responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor’s submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Ownership Disclosure Certification. This will assist the agency in meeting its obligations under the law.
