

## Mount Joy Township Trash & Recycling Program

### Customer Account Trends (2022 – 2031)

Mount Joy Township's residential trash & recycling program has seen modest growth over the past few years as shown in the table and chart below. However, there are multiple residential developments in the approval pipeline anticipated to have significant impact on the total number of dwelling units in the Township. We expect the construction of these new residential units (not including exempt multifamily apartment buildings) to begin in 2024 and for resultant population increases to take effect in 2025. Gauging the timing for these new households to come online is difficult given the capacity of individual builders and market demand. Therefore, the numbers for years 2026-2031 are best-guess estimates.

Beginning of Year	Number of Customers
2022	3,410
2023	3,432
2024	3,437
2025	3,478
2026 (est.)	3,653
2027 (est.)	3,893
2028 (est.)	4,173
2029 (est.)	4,453
2030 (est.)	4,733
2031 (est.)	4,833
