Description

The Bureau of Medical Services (MED) is seeking information on a dermatology-specific virtual reference solution to support embassy clinicians serving global populations. The solution must include a differential diagnosis builder with comprehensive clinical image libraries spanning all ages and skin tones, country/region-specific infectious disease breakdowns, and continuing medical education (CME) credits via single sign-on (SSO) access. It must also provide on-demand web-based training, administrative tracking, clinical decision support tools (including drug interaction and contraindication checking), and robust security and HIPAA/HITECH compliance features. See attached SOW for further requirements.

Responses are due to contracting officer Alicia Hofhine at HofhineAK@state.gov by July 1, 2026 at 5:00 PM EST, in PDF format and limited to five pages
